

## CHANGE A LIFE

### PURCHASE GOODS FROM WEI

The training and loans WEI provides change the lives of women and their families forever. The impact that a small loan can have on a woman's life is evident in the story of a woman the founder met with last year. Her husband had committed suicide and killed their oldest daughter after lighting her and their youngest daughter on fire. This woman stood before the founder with scars all over her body begging for a chance to change her life's course. With your help, WEI can change her life and the lives of hundreds like her.

**A human by nature, nurtures . . . It is our job to nurture those who need it. It is our responsibility to nurture our sisters of the world, the mothers of our children, and the leaders of tomorrow.**

Our bracelet symbolizes many things to us as an organization. In its' simplest form, it is an object of beauty and adornment. An object we wear to reflect the beauty of its' composition. Throughout time, women have worn adornments to signify many things, beauty, wealth, and stature. Our bracelets are worn to remind us of our commitment to the women of the world. When we see these we are reminded to think of those less fortunate and those who are in need of our help and nurturing.

The importance of being given two bracelets is that one is to be worn and one to be given away to continue the cycle of nurturing our fellow woman in need. Send it or give it to a friend, encourage their donation to a cause to help support the women of the world who are ready and willing to become self sufficient.
